The same authority declares that Gen. Savoff, former minister of war and former commander-in-chief of the Bulgarian army, in concluding a thrilling speech, said:

"Every Bulgarian who breaks away from Russia commits an act of treason toward his country."

The landing of additional French troops at Saloniki is reported from Athens. The correspondent there of the Exchange Telegraph Company says that a number of transports carrying French troops entered the port at Saloniki this morning. He adds that the forwarding of French troops for Serbia is proceeding actively.

The French troops landing from five transports consist of 70,000 men. They will proceed along the Guevghell-Uskup railroad to guard the line.

Notice Given to Greece.

Notice Given to Greece.

A delayed dispatch from Athens gives the following text of an official statement issued following a meeting of the cabinet Saturday night: The French minister delivered the

following note to Premier Ventzelos: By order of my government, I have the honor to announce to your ex-cellency the arrival at Saloniki of the irst detachment of French troops, and to declare at the same time that France and England, allied to Serbia, ers count upon Greece who already ha ip, not to oppose measures taken in e interests of Serbia, of whom she

the interests of Serbia, of whom she also is the ally "Premier Venizelos replied: By your letter of today you have been so good as to inform me of the arrival at Saloniki of the first detachment of French troops and of the decision of France and Emgland to send their troops to help Serbia, their ally; adding that the two powers count on Greece not to oppose measures taken in the interests of Serbia, whereof she also is the ally.

Formal Protest Is Entered.

'In answer to your letter. I have

Resignation of Venizelos Followed Break With King

After Victory in Deputies ATHENS, October 5, via Paris, Octo-ber 6.—Plain speaking characterised the meeting of the chamber of deputies preceding the resignation of Premier

Ventzelos and his entire cabinet.

Premier Venizelos accused the opposiman propagandists." Representatives the press gallery directly in front of file out in protest. They were premassed behind the press boxes, and were compelled to stand there, the target of hisses and catcalls from the crowded galleries and the floor of the

Triumph for Premier.

Premier Venizelos won a triumph notwithstanding the most determined attacks of the opposition, which protory by foreign troops. The premier did not hesitate to accept the challenge. He gave a frank exposition of the at titude of the government, after which he invited fullest discussion of the for-"Some time has passed since the en-

tente powers have made requests of Greece," he said in reply to an interpellation on the occupation of Saloniki.
"Today they ask nothing but thisthey who offer Serbia. Greece's ally, succor in the event of circumstances which would require Greece herself, under her alliance, to give Serbia help. "Great nations may with impunity treat treaties as scraps of paper. For smaller countries such a policy would be suicidal."

Wild Disorder in Chamber.

The wildest disorder broke out. The premier succeeded in dominating the situation, his voice rising above the Impressed with Mr. Edison's View tumult and the clang of the bell. He "We have a treaty with Serbio If we are honest we will leave nothing indone to insure its fulfillment in let-

After Premier Venizelos had conclud-ed his explanation of the circumstances ed his explanation of the circumstances connected with the landing of allied troops at Saloniki the chamber passed vote of confidence in the government. The vote was 142 to 102, with 13 mem-

The vote was 142 to 102, with 13 members not voting.
The opposition leaders attacked the member bitterly. They accused him of unnecessarily leading the country into the war on the side of the allies.

After his conference with King Constantine Premier Venizelos returned to the chamber of deputies and made a statement of the causes of the disagreement. He then announced the resignation of the entire cabinet. Sittings of the chamber were suspended.

PRESIDENT URGES

Tells Navy Advisory Board U. S. Should Be Prepared, But Not for War.

SAYS ARMY AND NAVY MUST HAVE CO-OPERATION

Secretary Daniels, in Speaking to Members, Cites Greatest Needs at This Time.

In outlining his views on national defense to the members of the civilian advisory board of the navy today, President Wilson declared that the whole nation "was convinced that we ought to be prepared, not for war, but for defense, and very adequately prepared."

The President received the members of the board, headed by Chairman Thomas A. Edison, well as to maintain their communica-tions with her; and that the two powwho told the scientists that the great need of the navy is greater research and laboratory facilities, and specifically mentioned the need for a better motor for aircraft and submarines.

The President shook hands with the members, and then addressed them, saying:

Should Prepare for Defense.

"I think the whole nation is con-

and serious advice. Nothing ought to be done in this country by any single group of persons—everything ought to be done by all of us united together— and I welcome this association in the most serious and grateful spirit."

Welcomed by Secretary Daniels.

Secretary Daniels welcomed the members of the board who gathered in office with Thomas A. Edison as chairman, in the first meeting of the under taking to add the wisdom of all American science to the sea strength of this

Particularly did he impress on scientists the need of a motor for aeroplanes and submersibles. That, he said is the navy's greatest present need. He asked them for their advice as to provisions that should be made for complete laboratory and research

work.

Later the board went to the White House, where the President received the members; and still later they went to Indian Head aboard the Mayflower, learner to Indian Head aboard the Mayflower,

dea of forming a board of civilian scientist advisers for the navy came into his mind:

Impressed with Mr. Edison's View.

"I was impressed," he said, "with the interview of Mr. Edison with Edward Marshall, which appeared in a New York newspaper. In that interview, which has become famous, Mr. Edison stated he would not use his knowledge to add to the terrors of war. But, he added, if his own country needed his inventive genius to make it safe from attack he would readily respond to any call made upon him."

"I have asked you to leave your homes and places of business," he continued, "to stop the important labors you are performing, to counsel with us for the strengthening of the navy. Witness Test of New Gun. ter and spirit. Only if we are rogues which has become famous, Mr. Edison may we find excuses to avoid our obli-

NAVAL ADVISORY BOARD HOLDS FIRST SESSION IN OFFICE OF SECRETARY DANIELS MEXICANS FAVORING

The group includes: Secretary Daniels, Thomas A. Edison (sitting at desk), W. R. "kitney, L. H. Backeland, Frank Julian Sprague, Benjar Cooper Hewitt, Thomas Robins, Howard E. Coffin, Andrew L. Riker, Henry A. Wise Richards, Lawrence Addicks.

"In answer to your letter, I have the honor to declare to your excellency that being neutral in the European war, the royal government could not possibly authorize the proceeding in question, for it constitutes a breach of Greece's neutrality, the more manifest since it comes from two great abelligerent powers. It is, therefore, the duty of the royal government to protest against the passage of foreign troops across Greek territory.

"The circumstance that these troops are destined solely to aid Serbia, Greece's ally, in no way myodifies the legal position of the king's government; for even from a Balkanic point of view Greece's neutrality could not be affected before the actual casus foederis was committed by the danger now threatening Serbia, which caused the dispatch of international troops to her help."

Bumanian Army Active.

The Rumanians are feverishly fortifying Giurgevo, on the Danube forty miles south of Bucharest, across the river from Bulgaria, according to advices reaching Athens.

Rumanian officers of Bulgaria, according to advices reaching Athens.

To think the whole nation is continued that we ought to be prepared, and that the will add to the efficiency of any will add to the efficiency of any tunity and to the tender, will add to the efficiency of the trip and that the the trip and that the the risk of the navy.

To give counsel, to use your initiative and term that the thirt is not a matter in which were that the theat may alone and the first have the co-operation of the save of the governmen

will be that on which the board will work at first. In this memorandum the fol-

lowing occurs:
"We have no adequate research department and no experimental laboratory equipped to meet our larger needs. We have a very modest establishment at Annapolis, which is known as the experimental station, but it is already experimental station, but it is already overburdened with routine work, such as the testing of coals, the photomicroscopic examination of steel and iron and the conducting of other tests of materials used by the navy, and there are neither facilities nor room for work of this kind on the scale demanded by new conditions.

"I have been advised by such members of your council as I have talked with of the necessity of the creation of an experimental and research laboratory such as is now considered an es-

to Indian Head aboard the Maynower, where an inspection was made of the powder works and gun testing.

Secretary Daniels, in opening his speech, reminded the scientists and inventors that the old order of naval things is passing away and that "old theories are crumbling daily into dust."

He spoke of the manner in which the idea of forming a board of civilian scientist advisers for the navy came into his mind:

The spoke of the manner in which the idea of forming a board of civilian scientist advisers for the navy came into his mind:

The spoke of the manner in which the members of the advisory council are peculiarly fitted to advise me as to just what is needed. Almost all of the members have research and experimental and research laboratory such as is now considered an essential part of every great manufactural definite recommendation to Congress of the advisory council are peculiarly fitted to advise me as to just what is needed. Almost all of the members have research and experimental and research laborators at the powder of the powder.

Capt. Sherburne G. Hopkins. Interviewed for First Time, **Analyzes Conditions.**

PERSONAL INVESTIGATION JUST MADE BY EXPERT

Thinks It Would Be Premature to Grant Recognition Now to Either

Villa or Carranga.

That Mexicans along the border favor a general conference with a view to establishing a civil government capable of enforcing the law and affording protection to life and property is the opinion of a Washingtonian, Capt. Sherburne G. Hopkins, who has returned from a trip to Mexican frontier points, bringing with him, incidentally, the information that Diaz Lombardo, Villa's minister of foreign affairs, will arrive in Washington Saturday to present the case of the Villa faction to Secretary Lansing at the State Depart-Secretary Lansing at the State Depart-

Capt. Hopkins has long been associated with Mexican affairs, having been Madero's diplomatic adv'ser in Washington during the successful revolution of 1911, after which he remained in Mexico for several months, assisting in the or-ganization of the Madero government. He has until today never been interviewed for direct quotation by newspaper men, many of whom have relied upon him as a source of information.

Sentiment of All Mexicans. Elaborating the idea that the Mexi-

while the producing people about them are kept poor. I know of such banks. I do not intend to stand for them if I can help it. The country will not stand for them."

Invites Senate Inquiry.

Mr. Williams said he invited Senate investigation of his actions, or the conduct of his office.

A majority of the national banks "are now conducting their business on a high and honorable plane, and are charging fair and reasonable rates on loans," Mr. Williams said. He predicted that a well thought-out, carefully constructed, conservative system of rural credits for the development of agriculture would come presently, and said that in the meantlme he expected Must Eliminate Military.

Must Eliminate Military.

"All that Mexico needs is the elimination of military domination or, I should say, the subordination of the military element to control by the civil author ities. On the border I found this sentiment prevalent everywhere, particular ly in the territory controlled by Gen. Villa, whose purpose I understand it to be is to establish in the near future a de facto civil government in the states ton national cemetery to the nation's of the Pacific coast, to which he is now

of the Pacific coast, to which he is now sending a very substantial force.

"In regard to recognition, my personal opinion is that it would be premature at this time to grant recognition to either the factions of Carranza or Villa, since neither permanently controls sufficient territory nor possesses those elements of civil administration so essential to recognition of a de facto government. Besides, the opposing factions are so evenly balanced that to recognize one to the exclusion of the other might be productive of great ill in one way or anistration so essential to recognition of a de facto government. Besides, the opposing factions are so evenly balanced that to recognize one to the exclusion of the other might be productive of great ill in one way or another.
